PROFILE

I am a Junior Developer who is committed to creating tasteful web applications, by considering the experience of the users, and the objectives of the product - form and function.

I believe my educational and employment experiences enable me to meet the demand for developers with both technical knowledge and business acumen.

I take pride in knowing that that a career in software best positions me to make a valuable contribution to humanity's technological advancements.
I am excited for what is to come!

TOOLS

HTML, CSS, JAVASCRIPT, JQUERY, RUBY, SINATRA, RAILS, AJAX, UNDERSCORE, GIT REACT, NODE

EDUCATION

Software Engineering Immersive   2019
General Assembly, Sydney
